

R.E.A.C.H. Declaration

Raymar-Telenetics has adopted a program to comply with the Registration, Evaluation, Authorization and Restriction of Chemical Substances (REACH) to ensure safe usage of chemicals per the EC 1907/2006. This is a declaration of our commitment to support the restriction of these hazardous materials from our products.

We have worked closely with many of our suppliers to inform them of our commitment to help support a safer environment. At the same time, we have requested that all of our suppliers join us in our efforts to support this program. Our suppliers have been asked to self-certify that the products they supply to us meet the standards of the EC 1907/2006 Directive. Any supplier that does not comply with our request has been removed as an approved vendor. It is our objective to meet or exceed our customer expectations and provide the highest quality products and service to our customers.

Our quality policy is to manufacture products with quality which are compliant to applicable regulatory requirements, with continuous improvement and customer satisfaction, which shall be the underlining reason for all of our efforts in development, manufacturing, marketing, sales, shipping and technical support. Please contact Raymar Engineering, for further details of supplier self-certifications or questions regarding Raymar-Telenetics' support of the REACH program.

Sincerely,

A handwritten signature in black ink that reads "G. Portellas". The signature is written in a cursive, flowing style.
